### Huge Fleet Of B-29 Bombers In Korean Attack

Ninety Superforts Strike Targets In North Korea Areas

(BULLETIN)

TOKYO, Aug. 19.—(INS)—A fleet of 90 B-29s showered 800 tons of bombs today on North Korean targets as close as 35 miles to the Siberian border.

Headquarters announced that the Superforts struck at Chongjin, far up the east coast of North Korea; at Hamhung, another east coast port and site of many vital industries; and at "numerous" railroad bridges in the Communist home territory.

The new Superfort raid set two records. It was the biggest fleet of planes ever to hit North Korea and the bomb load was the greatest ever rained on the invaders' homeland in a single day.

Second Only to Wednesday It was surpassed only by Wednesday's tactical strike by 99 B-29s against Communist troops massed opposite Waegwan on the Nakdong river front in South Korea, where 850 tons of bombs were dropped to break up a ground offensive.

Today's assault came after Lt. Gen. Walter H. Walker, commander of UN forces in Korea, indicated that he believes B-29s are more useful hitting strategic military targets behind the lines rather than massed troop concentrations such as they struck Wednesday.

Only Friday American and Australian planes set a new record of more than 550 sorties—highest number of combat missions in the Korean war. Fighter planes hitting the battle zones accounted for more than 350 of these—another record.

Heavy Damage Fifth Air Force and Royal Australian Air Force Mustangs attacked and damaged 23 tanks, 59 trucks and other vehicles, nine boxcars and one locomotive. Two supply depots, several warehouses and 16 buildings used for troop housing or supply storage were hit and left burning, the air command said.

Carrier based marine pilots reported they inflicted "severe" damage.

Dear Pa News: I read in your column that you were wondering as to the scarcity of tent caterpillars this summer. One afternoon last summer as I was walking near a wood lot near my home, on investigating the unusual activities of a colony of webworms I found that a small brown wasplike insect was making its way through the web covering and stinging the caterpillars inside. There are but few caterpillar colonies on the trees this year.—Mrs. Francis Swogger, R. D. 1, Wampum.

Heavy rains on Friday evening marked the end of the short-lived heat wave that had New Castle and the area in its grip for a day or two. The Friday evening downpour was unusually heavy in some parts of the county.

Many apple orchards are showing evidence of insect attacks, the leaves in a lot of places turning brown prematurely. This is undoubtedly due to red mites, Count Agent L. C. Dayton stated today. Some orchards might be affected by fire blight too, which turns leaves black. Aphids also seem more prevalent this year than last, Mr. Dayton stated, insect pests in general being very bad this year.

A Luna moth was found on the side of her house by Mrs. Clarence Cotton, R. D. 1, New Galilee, Friday afternoon after the rain storm. The moth is fairly large and green. It can be seen in the lobby of The News.

### Strikes In Liege Follow Slaying Of Red Leader

BRUSSELS, Aug. 19.—(INS)—A series of strikes erupted through the industrial area of Liege today in chain-like reaction to the assassination of Julien Lahaut, head of Belgium's Communist party.

Sweeping ahead of the strikes was the ugly, whispered rumor that the outspoken party leader had been killed because of his opposition to the return to the throne of King Leopold III.

The 65-year-old Lahaut was shot down at his home in suburban Seraing, five miles from Liege, last night by two gunmen who knocked at the door and fired four shots at the Communist leader when he answered.

Plants Closed in Protest As the news of his death spread, steel, iron, coal and engineering plants in Liege closed in protest, with the powerful Socialist-controlled Federation of Labor giving its full backing to the angry strikers.

(Editor's note: It was the Socialist party in coalition with the Liberals and Communists that forced King Leopold to give up his royal power last week.)

### Korean Forces Lose Thousands

WASHINGTON, Aug. 19.—(INS)—The army estimated officially today that the North Korean Communists have suffered 50,000 casualties and the South Koreans more than 37,000 casualties in eight weeks of war.

The army spokesman indicated at the same time that no totals or figures on American casualties will be released in the future, except when a phrase of the campaign has ended and a considerable time has elapsed.

The estimate of Communist casualties was 19,000 higher than a previous figure of 31,000 two weeks ago. The army gave no breakdown on the killed and wounded the enemy is believed to have suffered.

The South Koreans, the spokesman said, had lost 37,000 men in killed, wounded and missing "as of three weeks ago."

The estimate indicated that the South Koreans may have about 60,000 men still in the fighting lines. They had an army of 96,000 at the start of the war.

### Mercer Soldier On Missing List

According to the casualty list announced today by the Department of Defense at Washington, a Mercer soldier is among army personnel announced as missing in action.

White House In New Attempt To Halt Big Tieup

(BULLETIN)

WASHINGTON, D. C.—(INS)—The White House today scheduled a joint conference between rail union and carrier officials in an effort to head off next week's threatened railroad strike.

The session, slated for 8 p. m. (EDT), was taken as a hopeful sign as the deadline neared for the start of a series of "token" walk-outs in the midwest Monday.

Presidential Assistant John R. Steelman called both sides to the White House after separately conferring with the representatives of the carriers and the two big rail unions.

By WILLIAM KERWIN (U. S. Staff Correspondent)

WASHINGTON, Aug. 19.—The White House makes a new attempt today to keep a quarter-million railroad workers from staging a nationwide strike which could play havoc with the war-defense program.

Presidential assistant John R. Steelman has arranged a meeting with representatives of the two big railroad unions. He said that if all goes well he hoped to bring management spokesmen into the meeting.

Warn Of National Strike Announcement of the new efforts came after two top leaders of the railway unions warned that their members are determined to call a national strike if necessary to gain settlement of their wage demands.

W. P. Kennedy, president of the Brotherhood of Railroad Trainmen, and Roy O. Hughes, head of the Order of Railroad Conductors, handed down the strike ultimatum to Steelman Friday.

The union leaders urged Presi-

### Two Are Dead In Pittsburgh Shooting Case

PITTSBURGH, Aug. 19.—(INS)—A fleeing killer, hemmed in by a patrolman's gunfire, shot and killed himself early today while fleeing from a tavern where he had shot another man and wounded his wife.

The dead men were identified as George Wilson, about 45, and Edward Jackson, 35.

Police said Jackson fired five shots at Wilson and his wife, who were sitting together in a booth in the tavern, just as Patrolman Lawrence Delain entered the establishment.

Mrs. Jackson was shot twice in the right arm. Her condition was reported not serious.

Police said Jackson and his wife were estranged and that she had sworn out a warrant for his arrest on a surety of the peace charges. Jackson and Wilson were reported to have quarreled over Mrs. Jackson Thursday night in the same tavern where the shooting took place.

### Forest Fire In California

SAN DIEGO, Calif., Aug. 19.—(INS)—San Diego county's worst forest fire in years raged for the fourth day today through the multi-million dollar mountain resort area 40 miles east of San Diego.

The flames are out of control in Cleveland national forest and Cuyamaca state park despite the efforts of 1,000 men with bulldozers and pumps to check the blaze.

At least a dozen mountain homes, some of them costly structures, and 50,000 acres of timber and brush watershed have been destroyed.

Much of the Cuyamaca state park recreation area, one of the most beautiful sections in southern California, has been laid waste.

Some 12 buildings were reduced to ruin at Descanso park, two miles north of Descanso. One was a \$20,000 mansion built originally for the late celebrated singer, Madame Ernestine Schumann-Heink.

Approximately 1,000 vacationists and permanent residents fled the mountains yesterday and the day before and a further evacuation was in prospect today.

### South Korean Troops Landed Off Seoul's Port

U.S. And Korean Troops Continue To Push Back Enemy Drives North And South Of Vital Taegu, War Report Shows

By HOWARD HANDLEMAN

(Far Eastern Director, I. N. S.)

TOKYO, Aug. 20.—(Sunday)—Landing of South Korean amphibious troops on Tokchok island off Seoul's port of Inchon far behind Communist lines was announced Saturday night by General Douglas MacArthur.

The audacious landing, possibly heralding a big-scale United Nations thrust from the sea to slice through the enemy's deep rear, was made Friday under cover of an Allied naval barrage but encountered no enemy opposition.

This potentially powerful blow to the Reds was delivered while U. S. and South Korean troops turned back enemy drives north and south of vital Taegu, the United Nations cornerstone bastion on the Nakdong river sector.

#### Picture Brightening

The brightening war picture for the United Nations forces included these developments:

1—U. S. Marine and Army troops virtually knocked out the Communist bridgehead below Changnyong, southwest of Taegu, scoring average three-mile gains.

2—Spearheads of possibly 40,000 invasion troops were thrown back more than a mile further toward their springboard base of Kunwi on Taegu's northern approaches.

General MacArthur said early Sunday that South Korean troops penetrated four to six miles north of American lines and reported no enemy resistance was encountered.

Continued Enemy Buildup 3—MacArthur reported a continued buildup of enemy strength in the U. S. 25th Division sector on the southern front, west of the vital port of Pusan.

He said the enemy concentrations were 30 miles west and southwest of Masan, which would put them about 55 miles from Pusan.

4—Some 90 Superforts blasted key objectives with 800 tons of bombs in a strike within a five-minute flight of Russian Siberia. It was the war's biggest U. S. air blow against the North Korean homeland.

5—On the east coast, General MacArthur said, the imperiled South Korean Third Division was "safely evacuated" from the Yongdok area. South Korean troops continued their drive north of recaptured Kigye, seizing heights to miles beyond the town.

The surprise landing of South Korean troops on Tokchok island, in the Yellow Sea 35 miles southwest of the west coast port of Inchon, was carried out swiftly under the protection of warships, probably British.

Commands Seoul Approaches The island commands approaches in Inchon harbor, sea outlet for the fallen South Korean capital of Seoul. Both Seoul and Inchon were captured by the Red invaders in the early phase of the war, now closing its eighth week.

United Nations warships, probably British, covered the landing on the island which commands the approaches to the large harbor of Inchon, sea outlet for the Korean capital of Seoul. Both Seoul and Inchon were captured by the North Korean invaders in the early phases of the Korean war, now closing its eighth week.

The Tokyo announcement, revealing this dramatic development in the struggle to smash the Red invasion, said that no Australian troops were reported to have been included in the amphibious forces that went ashore on Tokchok after (Continued on Page Two)

### B. M. Baruch Eighty Today

NEW YORK, Aug. 19.—(INS)—Bernard M. Baruch is 80 years old today and he wishes everybody would just forget about it.

Scorning a formal birthday celebration, the elder statesman and park bench philosopher demanded rhetorically: "What's different about a man having a birthday, except that he's a year older? If he has enough of them, people will want to hang him or shoot him!"

Nevertheless, a few friends—at their own insistence—are calling today at Baruch's New York apartment to toast him and wish him a happy birthday.

The elder statesman held informal court for a gathering of admiring children and their elders on a Central Park bench on the eve of his anniversary.

Webb county jail officials said Sobell, held under \$100,000 bail, mentioned repeatedly that he wishes to be transferred to New York but refused to make any other statement until he "can talk to my lawyer there."

They said details of his transfer may be arranged at today's FBI conference with Judge Allred. Sobell waived removal proceedings (Continued on Page Two)

### 'Little Six' Nearing Accord On Korean Peace Attempt

By PIERRE J. HUSS (I. N. S. Staff Correspondent)

LAKE SUCCESS, N. Y., Aug. 17.—The "Little Six" of the United Nations Security Council neared accord today on the drafting of a Korean peace program amid indications of another Soviet "peace offensive."

The delegates of the six small nations of the 11-nation group met yesterday as cabled demands came from Europe for a "hands off Korea" policy and removal of U. S. and other UN forces from Korea.

The communications were signed by the Red Regime of Poland and the Communist-dominated World Federation of Trade Unions in Paris.

Meanwhile, at their private conference, the small powers—India, Yugoslavia, Norway, Egypt, Ecuador and Cuba—canvassed the Indian proposal to go head next week with a formal motion on setting up the "Little Six" Committee for Korea.

Meet Again Next Week They made no definite decisions but agreed to meet again next week before the council goes into session Tuesday afternoon.

An important effect of setting up the committee would be to include the big five powers from political discussions of Korean peace terms and the process of unifying Korea after the North Korean Communist invaders had been smashed. In a growing section of UN opinion, the great power of UN opinion, the great power (Continued on Page Two)

being secretly carried to the island in a navy-protected convoy. Earlier, unconfirmed rumors (not published by International News Service), had said Australians took part in an amphibious landing off South Korea's west coast.

## Drive Enemy Back

The disclosure came as the tank-supported U. S. army's 27th regiment and the South Korean First Division drove advance units of perhaps 40,000 Red troops more than a mile farther north along Taegu's upper approaches.

Simultaneously, the enemy's Changnyong-Yongsan bulge across the Nakdong below the South Korean fortress city was practically knocked flat by U. S. Marine and army troops after they scored average three-mile gains to within sight of the river's east bank.

Other U. S. forces, meantime, opened a new attack designed to destroy a third Communist bridgehead across the Nakdong river at Hyonpung, 15 miles southwest of vital Taegu, now relieved of an immediate siege threat.

American troops along Korea's south coast recoiled before new Red thrusts and then hurried them back.

## Air Campaign Mounts

As the ground forces compiled fresh successes in the four principal sectors, the mounting air campaign roared into its 55th day with an 800-ton blasting of North Korea by some 90 B-29s within a five-minute flight of Russian Siberia.

The superforts, hitting targets at Hamhung and Chongjin—the latter only 35 miles below Siberia's frontier—set a double record. It was the biggest plane armada and the heaviest bomb cargo ever thrown against the enemy's homeland.

ers are not in a position to find agreement between themselves and Russia for a peaceful Korean Settlement.

Another beneficial result of procedure in accordance with India's proposal would be the automatic suspension of the propaganda battle which has been waged by Soviet Delegate Jacob Malik since he assumed the Security Council Presidency on Aug. 1.

## Given Encouragement

Encouragement for putting the Indian proposal into the form of a resolution was drawn by the six delegates from the spelling out of UN peace aims in Korea at Thursday's security council by Chief American Delegate Warren R. Austin.

In the declaration, Austin asserted that UN must make sure that Korea is unified into a single independent nation devoid of the "half slave, half free" status established by the 38th Parallel dividing line. He reasserted that the United States has no designs on Korea as a military base and said that peace can best be strengthened everywhere if the aggression in Korea is halted.

Particular interest in the "Little Six" meeting focused on Austin's statement that Russia can have UN assurances a free and independent Korea "will not in any way threaten the security of the Soviet Union." This group may make its weight felt next Monday, when Malik is meeting the whole security council in private session.

## THE EVOLUTION of CREDIT

• Credit transactions must certainly go back far into the dim past. For they were possible as soon as some had accumulated a surplus beyond their needs, others could find use for this surplus and confidence had developed.

The importance of confidence to the existence of credit is indicated by the fact that our word "credit" comes from the Latin "credo" meaning "I believe".

### THE DEADLY TOY?

The Atomic Energy Commission's latest report to Congress is both discreet and dispassionate, but the horrors implicit in it need no histrionics. Production of atomic bombs is on schedule; it is proceeding at a faster rate than in 1949.

Work on the hydrogen bomb project is proceeding—because, as the commission said almost apologetically, the U. S. can not risk letting some other nation get it first.

Radioactive wastes from nuclear projects are encased in steel drums, sealed in concrete, then dropped into the deeper parts of the ocean. The hope is that this method will delay corrosion long enough to materially reduce radioactivity, and disperse the eventually released products sufficiently that no harm will be done.

If an enemy should bring an atomic bomb over here on shipboard, perhaps intending to release it while the ship is in harbor, there is no way authorities can detect it, the AEC reports. Geiger counters are unable to detect the small radiation from a well-packed atomic bomb in its quiescent state.

This, however, is hardly worth losing sleep over. Russia will hardly use atomic bombs against the United States as long as she has only a handful of them. America's power to retaliate is too great. But later, as her stockpile grows, the danger will increase, even if American production is increased proportionally.

The AEC is still working on a project, as previously reported by Secretary Johnson, to make radiological war weapons containing radio-active poisons that could silently wipe out large populations if dropped on cities.

It begins to look more and more as if man had got hold of a toy with which he can not be trusted.

### RED HELP FOR HO

Mixed news comes from Indo-China where, as in Korea, the forces of communism and democracy are ranged against each other. The good news is that the first shipment of American war material for French troops arrived last Saturday. The bad news is that the Communist-led Viet Minh are getting big-scale help from the Chinese Communists.

While the news is mixed, and consequently feelings should be mixed, western power military circles in Saigon are reported to be frankly pessimistic on French chances of defeating Ho Chi Minh's troops. His soldiers are now crossing the border into China by thousands. They are said to be in training there and the Chinese Reds are equipping them besides. They are going to give the French trouble when they come back.

They may return in an open invasion, striking across the border at the French positions. Or they may drift across the line in small groups and join the Viet Minh forces already fighting. The second possibility is the likelier one; but either way, these troops could prevent a French victory. And western military experts in Saigon say that a French holding operation might not be worth the cost.

The one bright spot in a dark outlook lies in the fact that it will take time to train and arm Ho's guerrillas. If the French can get the weapons they need, before his soldiers return, the Communist plans might go wrong. After all, expectations are that it will be some months before Ho will benefit much from the help he is getting.

There's just a chance that the arms shipment from this country outbalances the bad news. At least it feeds the hope that American help will get there in time.

### THE NAVY'S 'NEW' ROCKET

Reports that a new navy rocket—the Tiny Tim—has been used for the first time in combat with highly effective results is an encouraging sign that the armed forces have not been neglecting the steady development of their conventional weapons.

But it must not be thought that the Tiny Tim is something brand new, whipped up in recent months to meet demands suddenly brought to the attention of military research experts. The rocket which smashed bridges, railroad cars and trucks in Korea has been under development since the end of the last war, and it reached its present efficiency only after long periods of experiment and trial.

That is the way with most modern weapons. They don't emerge full-blown when a war emergency requires them, but are the result of determined, patient study, imaginative military thinking, and the allocation of sufficient funds for research.

It is hoped that this new monster rocket, with almost the same shattering power as the largest navy projectiles, will be a significant factor in driving back the Korean Reds. Its inauguration now, after five years of development, should emphasize once more the time lag between drawing board and combat use, and remind us not to put too much faith in weapons still in the planning stage.

France has 15 different political parties. No doubt all of them follow the American style and promise lower taxes.

Week's wisest sermon: A Cleveland minister says hoarding is simply borrowing tomorrow's trouble to plague us today.

In Mansfield, O., a swarm of bees attacked a street traffic light. Must have thought the amber light was just a clump of honey.

What Junior can't understand about those villainous wrestlers on television is how come the Lone Ranger doesn't step in and polish 'em off, once and for all!

## Washington Calling

(By MARQUIS CHILDS)

### Democrats Face Election Dilemma

WASHINGTON, Aug. 19.—Democrats in Congress up for re-election are rapidly realizing the cruel drama they face in the campaign this fall. They must support at least tacitly the policies of their party. Yet those policies, whether as a deliberate consequence or by accident is unimportant, have resulted in a war for which this country was in no way prepared.

The reverses have caused widespread anger and dismay. This is true even though the holding operation by American forces, judged by objective military observers, has been executed with skill. In view of the heavy balance in favor of the Reds it has been remarkably successful.

The conflict in Korea is the kind of limited war that the American public finds it difficult to rationalize or even to understand. The evidence is growing, particularly as reflected in letters to Congressmen, that the Korean war has produced great confusion and uncertainty.

To begin with it is difficult to personalize the struggle. There is no Kaiser, no Hitler. Stalin is a distant figure who talks about peace.

**Fight Abstraction**  
The fight is against an abstraction called Communism. For far too many people, both here and abroad, this abstraction seems to mean little when it comes to the blood, sweat and tears of sacrifice. They ask in letters coming in increasing numbers why American boys are fighting in a distant land, and why taxes are going to have to be increased so drastically.

All this was focused in the statement of the Republicans on the Senate Foreign Relations committee. Senator Henry Cabot Lodge Jr. of Massachusetts has now explained that this was not intended as an attack on the Democrats, but as a constructive approach to preparedness to meet the menace of Communism everywhere.

Lodge and Senator H. Alexander Smith of New Jersey may have intended to make a point that way. But Senators Bourke B. Hickenlooper and Alexander Wiley, the other signers, both up for re-election, were certainly not blind to the political meaning of the document.

The Republican policy statement which drew angry replies from Democrats on the Foreign Relations committee, suggests the wide range of the Republican attack in the fall. Senators like Lodge and Smith, who have supported the bipartisan foreign policy in the past, will inveigh against diplomatic and military failures of the past, at

the same time that they demand more sacrifices and greater urgency in preparing to meet the attack of Communism.

#### On Other Extreme

At the other extreme of Republicanism, Senators of the stamp of William E. Jenner of Indiana and George Malone of Nevada will denounce the war itself and American involvement in it. They will not hesitate to use the crudest isolationist and America first appeals. Even a Republican hopeful so far out of the political picture as Harold E. Stassen, president of the University of Pennsylvania, has come out in a radio address accusing the administration of being "one of the most incompetent in our nation's lifetime."

Thus, from both flanks the Democrats will be under fire. How to answer this fire without sounding merely negative and defensive is yet to be solved.

Perhaps the greatest handicap the Democrats suffer under is the fact that domestic issues are pretty much eclipsed. And it was on domestic issues that the Democratic high command had relied to get out the labor vote in an off year election. Without a turnout approaching that of the presidential year of 1948, when a little more than half the eligible voters cast their ballots, the Democrats will be in trouble.

**Interesting Illustration**  
An interesting illustration is Connecticut. Governor Chester Bowles won over his Republican opponent in '48 by a handful of votes. During his brief term he was vigorously pushed reforms in government and education. But now the Republicans have named Representative John Davis Lodge (Henry Cabot's brother) to run against him. Lodge can dwell on his specialty which is the failure of American policy in the Far East. While this won't have much relation to what is happening in Connecticut, the voters will be likely to listen.

The obvious mistakes and failures of an administration long in power stand out glaringly at this time of crisis. Realizing the awesome nature of this crisis, we can only hope that the division over the war will not go too deep. Yet politics in a political year is politics in spite of anything.

### Folks Of Fame

Ruth Clifford was one of the stars of the silent motion pictures whose biography appeared in black type in the film directory of that day and whose picture was included in the illustrations. She also survived the advent of talkies. She was born in Pawtucket, R. I., and she lived at various times in New York City, San Juan, Puerto Rico, and Los Angeles. Pictures in which she starred are, among others, "Butterfly," "Tornado," "Storm Breaker," "Daughters of the Rich," "Mothers-in-Law," "Ruthless," "Anne Rutledge" in "The Dramatic Life of Abraham Lincoln," "The Devil's Apple Tree," "Eternal Woman," etc.

Alfred B. Nobel was born at Stockholm, Sweden, October 21, 1833. After a stay in St. Petersburg, Russia, he returned to Sweden and devoted himself to the study of explosives, especially nitroglycerin. In 1862 he patented the result of his research as dynamite. He also produced other high explosives, including smokeless powders. From the manufacture of his inventions and the exploitation of oil fields he amassed a great fortune. At his death December 10, 1896, at San Remo, he left the bulk of his fortune in trust for the establishment of five prizes for outstanding contributions to physics, chemistry, medicine, literature and peace.

#### OTHER PEOPLE'S QUARRELS

Strange what father said to me I remember now:  
An interloper never be  
In a family row.

Don't forget this counsel true  
For a single day.  
Both of them will turn on you  
If you join the fray.

Let them battle if they must;  
Tangles break and chairs  
You'll miss trouble if you just  
Mind your own affairs.

In our haste to build up armed forces for the emergency at hand . . . and to keep a strong arm ready for any future aggression . . . we sometimes forget that we all have obligations that we must keep up . . . the men who are in the hospitals from World War II . . . and it's the American Legion Auxiliary we have in mind today as doing a great job for the men in hospitals . . . and since we have a veteran's hospital so close to home . . . we thought maybe some of you people would be in a position to help the Aux. cause.

One of the projects the ladies have been working . . . and today are working on . . . is the collection of coupons . . . All types of coupons that you receive when you buy groceries and other products for the home (soap, etc.). These coupons, box tops and can labels are worth cash to the auxiliary . . . and when they redeem these with the manufacturers they use the cash to buy needed articles for the men now in various hospitals . . . all local effort this year will go to Deshon at Butler.

For definite information concerning the saving and turning in of box tops, labels and coupons call Mrs. Maude Forrester . . . she and her committee from the New Castle American Legion Auxiliary have lists ready and waiting for you . . . this is an opportunity to help and yet it won't be necessary to put out an extra cent . . . just utilize the products that you need in your home every day.

MARCH OF EVENTS

WASHINGTON, Aug. 19.—It is a good bet that the House Un-American Activities Committee will take up the investigating of charges of Senator Joseph McCarthy (R., Wisconsin) that the State Department is riddled with Communists. However, the chances are even better that the committee will not get underway until after the November elections.

Democrats believe that McCarthy has been "discredited, dishonored, and unused" with the release of his subcommittee's report by Senator Millard Tydings (D., Maryland). With that, they believe they have laid the ghost of the GOP's announced effort to campaign on the Communism issue.

However, the Republicans believe that the Tydings subcommittee overplayed its hand by its bitter report language which, in the main, blasted McCarthy personally. They think many voters will look on it as a whitewash.

In the light of this, the House group is not expected to launch any quick probe based on information McCarthy is giving it. An eventual investigation is almost certain. The House Committee is traditionally unimpressed by administrative opposition to any such undertaking. Several House committeemen are convinced that the Tydings group failed to follow up good leads furnished by McCarthy's investigators.

Besides, as Rep. Harold H. Velde (R., Illinois) points out, the House Committee is "the proper forum" for such charges.

**BATTLE OF THE SEXES**—The Senate Armed Services Committee has appointed a special subcommittee to try to talk the Navy into dropping its rigid opposition to women doctors in its medical corps.

The highly placed sex dogs who come before this group are assured of a rough time—for the subcommittee chairman, Senator Lester C. Hunt (D., Wyoming), has a special interest in the question of sex equality involved, since his state was the first to grant women the right to vote.

Hunt has in his office the framed and engrossed bill which passed his state's territorial legislature in December, 1890, giving women the right to hold office and "cash" their votes providing they were 21 years old or older.

Near the bill is a picture of Esther Morris, the one-woman pressure group behind its passage. With such stern reminders of the rights of women—and of how militant they can be when they don't get them—Hunt can be expected to conduct a most searching investigation of the Navy's "men only" medical policy.

**HOME FRONT DEFENSES**—In response to a growing clamor for a federal civil defense program designed to cope with atomic missiles and other weapons of modern warfare, the National Security Resources Board has promised to have a blueprint ready by Sept. 1.

It will be turned over to the governors of the states, who will be responsible for getting the defense program into operation on a local level.

The program is expected to be greatly influenced by a new gov-

ernment publication on the result of atomic bombings which is being made public this month.

This thick volume paints an unpleasant picture of the destruction wreaked by A-bombs but it contains much helpful information for keeping casualties to a minimum.

The NSRB is known to be working hard on its CD plan, spurred by the knowledge that there is a terrific recruitment and training job to be done before any adequate program can become useful.

## They Say

WASHINGTON—Sen. Stennis (D., Miss.) . . . "The world is literally trembling on the threshold of World War III."

TOKYO—Gen. MacArthur . . . "Should the course of world events require that all mankind stand to arms in defense of human liberty and Japan come within the orbit of immediately threatened attack, then the Japanese, too, should mount the maximum power which their resources will permit."

WASHINGTON—Sen. Tydings (D., Md.) . . . "Never again will the United States have the luxury of time to get ready. In the atomic age, in the age of intercontinental bombs, time is something we can't buy."

LAKE SUCCESS—U. S. ambassador to the United Nations Warren Austin . . . "Does the Soviet government wish peace in Korea? It can have peace. Does the Soviet government wish to end this fighting. It can end the fighting."

**SCRATCHES**  
Butch sometimes gets a little rough with Puss and she gives him a scratch. He yells and mom puts iodine on it and kisses it. Then Butch is O.K. again.

Finger nail scratches are not too good either. Sometimes a scratch gets infected and causes a lot of trouble.

Nails should be kept smooth and free from sharp places. It doesn't seem to make much difference whether they are long or short.

Mollie likes her's long with a lot of pink stuff on them.

Butch plays ball and digs fishing worms and breaks his nails. They wouldn't pass muster in a beauty show.

Don't worry. Pretty soon he will have a sweetie. Then he will go for hair tonic and nail files in a big way.

## Try And Stop Me

By BENNETT CREEP

Automobile publicists scored a ten-strike when they put on display this spring a gold-plated sedan upholstered throughout in genuine leopard skin. The price-tag (\$35,000) was incidental. The car was not intended for sale—but for publicity, which it received in bales. Best of a hundred wise-cracks about the model was pulled by Peter Lind Hayes. "What a wonderful car," he exclaimed. "Who shot it?"

The latest joke bootlegged out of Soviet Russia concerns the cat-chism of an urchin in Leningrad. "Who is your father?" queried the inspector. "The incomparable Stalin," proclaimed the urchin. "And your mother?" "The incomparable Soviet Union," said the urchin, in the same parrot-like tone. The inspector allowed himself the shadow of a smile, and asked, "What would you like to be when you grow up?" The urchin answered, "An orphan."

### TARGET NIGHT

PHILADELPHIA.—(INS)—Tuesday night is target night for the ladies at the Philadelphia Naval Base, but the admiring whistles are limited strictly to the girls' straight-shooting. The reason? The pistol and rifle team of the women's reserve platoon of the Philadelphia Sixth Infantry Battalion of the Marine Corps Reserve is the best in the country.

There are about 550 lady Marines on active duty in the United States.

## Knife - And - Fork Ratings

By PAUL GALLICO

DIJON—The American tourist, wandering through France this summer, particularly the one doing it by motor car, comes to regard his French cities and villages from a strange, but uniform viewpoint. He does not refer, when speaking of his tour to the town with the fine old castle or the exquisite church, but he will report with glee that Such-and-Such a city was a two-tower, three-knives-and-forks place. Only if you are a fellow adept of the "Guide de Pneu Michelin" will you know what he is talking about and then, of course, you will congratulate him.

The annual Michelin Guide is the tourist's pal. It lists the eating, sleeping and garage accommodations in every city, town, village, hamlet and crossroads in France. Any place big enough to have a name is recorded in the guide with the name, rating and location of the hotel or restaurant there. Nothing like it is published anywhere else in the world for the simple reason that to the Frenchman, few things are as important as a good meal. When he goes on tour, he literally eats his way across France.

#### Guide Uses Quality Symbols

To save space, the Guide uses symbols for the quality of hotels and restaurants. Little house-sections with towers for the hotels, and crossed fork and spoon for the eating places. This last symbol is the one the American calls "knives and forks." The French might as well change it to a crossed knife and fork, because the American will never refer to it as anything different.

Beginning with the hotels, there is the two-section, three-tower place which in sequence goes tower-section-tower-section-tower. The middle tower looking at the little symbols, as you approach a town and note that all it has is a two-section hotel without tower, you know exactly what the room and furniture and bed will look like, also what it will smell like, how much porcelain will be chipped out of the bath tub in places where it hurts, how slatternly the woman behind the desk will be and what the chances are of there being hot water in the faucets.

The knife-and-fork ratings, however, are even more accurate. Because, believe it or not, a Michelin representative has sat down to a meal in every one of those joints before the book was published. He ate the chef's specialty, he went into the kitchen, he looked and he tasted and also made note of the cellar. In fine print after the symbols are listed the good things they have to eat and the best wines, so that long before you get to the town for which you are heading you can make up your menu of food and drink and start enjoying yourself in anticipation. You are never disappointed. If the place is marked with three knives and forks and a star, and it says their specialty is entrecôte et cèpes à la bordelaise, with a good Graves or Medoc, and that the interior decorations are of an unusual nature, that is exactly what you will find when you get there. And you can't be fooled or disappointed, because the closing day is also noted.

After a while you learn to distinguish subtle differences, such as a three-knife-and-fork place with one star which means restaurant de luxe with a good cook, as against a two-knife-and-fork, two-star joint which indicates a comfortable restaurant with an excellent cuisine. You get smart, cue the luxury and pick the two-star grub.

Thus you learn to lay out your trip ahead, not so much by time, mileage and where you want to get to, but by the number of knives, forks and stars encountered en route. Everybody plays it over here. (Distributed by McNaught Syndicate, Inc.)

#### Find Surprising Uniformity

But in the main, after you have toured a while, you begin to find a surprising uniformity and accuracy in the listing and classification, and just by looking at the little symbols, as you approach a town and note that all it has is a two-section hotel without tower, you know exactly what the room and furniture and bed will look like, also what it will smell like, how much porcelain will be chipped out of the bath tub in places where it hurts, how slatternly the woman behind the desk will be and what the chances are of there being hot water in the faucets.

The knife-and-fork ratings, however, are even more accurate. Because, believe it or not, a Michelin representative has sat down to a meal in every one of those joints before the book was published. ## Looking At Life

By ERICH BRANDEIS

Here is a piece of advice to young people which is contrary to all previous "SUCCESS" advice given to them:

DON'T BE A GO-GETTER!

Being a go-getter has become part of the American business religion.

Perhaps you may consider my using the word RELIGION, in connection with business, profane.

Once again I turn to my good friend and philosopher, the Bible.

The 24th verse of the 6th chapter of St. Matthew, certainly indicates that there is such a thing as a business religion:

"No man can serve two masters: for either he will hate the one, and love the other; or else he will hold to the one, and despise the other. YE CANNOT SERVE GOD AND MAMMON."

The capitals in the above quotation are mine. I use them to illustrate my point.

To be a GO-GETTER usually means to be a servant of Mammon.

In the Bible "mammon" was simply the personification of wealth. The poet Milton, spelling Mammon with a capital "M," described him as a "fallen angel of greed."

What does the Go-Getter do and is admonished to do by all the writers of success books and all the teachers and preachers of SUCCESS as the ultimate goal?

He worships Mammon (or mammon, if you prefer) six days a week. He makes Mammon his Monday-to-Saturday RELIGION.

On the seventh day, this same six-day worshiper of Mammon goes to church and prays to God, asking Him for strength to serve that other master the other six days of the week.

Which IS the Go-Getter's real religion?

Can the once-a-week master compete with the six-days-a-week one?

Do you still think that the wor-

ship of mammon is NOT a religion? Do you still say that BUSINESS is NOT a religion to the real, dyed-in-the-wool Go-Getters?

What has all this go-getting got us?

We are disliked by all other nations.

We are reputed to be greedy capitalists who want to own the earth.

We have to BUY our friends, and are used the world over to pull others' chestnuts out of the fire.

The great majority of Americans are just as idealistic as any Europeans or Asians.

We want to live in peace. We want to enjoy our homes, our families and all the other blessings of God.

All we want out of life is happiness and freedom from care.

But that is not enough for the GO-GETTER.

He wants Wealth, Power, Fame, So he gets himself a success book and rushes through life at a break-neck rate of speed in pursuit of his goal, to the delight of the doctor and the undertaker, missing all the beauties along the way.

The National Safety Council, says "Don't Speed!"

It should add "Don't be a GO-GETTER."

## 'Here Comes Charlie' Presented Last Night

"Here Comes Charlie," a three-act comedy, was thoroughly enjoyed by an audience of 170 persons when it was presented in the recreation room of the Central Christian church, Friday evening.

Miss Alberta Scriven and Keith McCaslin played the parts of Ozarkian hillbillies and caused many laughs. Other leading parts were played by Miss Lottie Allhouse and Robert Glass. The other cast members were: Mary Lou Leckwart, Eleanor Suci, Glenna Sentgeorge, John Paton, Donald Strobel, and Perry Skundor.

Miss Mary Abraham directed the play and was presented with a gift from the cast by Miss Eleanor Suci.

After the play a party was held at the home of Mr. and Mrs. Albert Scriven of 414 Galbreath avenue for the cast and friends.

Nylon ropes are becoming popular with cowboys and rodeo riders for lariats.

## HOSPITALS ARE POOR PLACES TO SPEND ANY VACATION TIME

This weather was intended for vacations. Trips to the sea, to the mountains, driving over the picturesque Pennsylvania hills, seeing new places and new faces, and most vacationers do it by automobile.

The last place to be recommended for a vacation period is a hospital. But unfortunately all too many motorists are making a hospital a port of call.

Most highway accidents can be prevented if reasonable caution is observed. Drive as though you expected to be back in the office at the end of your vacation. Drive as though you expected to be on the highway tomorrow.

**Smith Appointed New Director Of Central Intelligence Agency**

WASHINGTON, Aug. 19.—(INS)—Lieut. Gen. Walter Bedell Smith, former ambassador to Moscow, is scheduled to become director of the Central Intelligence Agency about the end of September.

Smith, 54, succeeds Rear Admiral Roscoe H. Hillenkoeter, who is slated to take command of a cruiser division at that time.

White House Secretary Charles G. Ross said that Smith's appointment does not indicate any dissatisfaction with Hillenkoeter's work in the important agency, which pools information from many Federal sources.

Hillenkoeter, however, had been under fire in Congress as a result of the North Korean's surprise invasion of South Korea and America's lack of military preparedness to meet the attack.

Smith, now commander of the First Army with headquarters at Governor's Island, N.Y., has had a long military career which included service as chief of staff to Gen. Eisenhower in World War II.

## Pittsburgh Man Is Fatally Hurt; Struck By Truck

TRENTON, N. J., Aug. 19.—(INS)—A Pittsburgh man was killed and a Trenton man injured today when a truck struck them as it swerved to avoid two wrecked cars in Robbinsville, five miles east of Trenton.

The fatality was John Ansell. Michael Fisher suffered head injuries.

Police said that the operator of the truck, whom they listed as John Clehm, of Rosehain, near Vineland, accidentally struck the pedestrians to avoid the wreckage.

Fisher was discharged after treatment at a Trenton hospital. Clehm will have a hearing later today.

## Young Pittsburgh Boy Dies While Swimming

PITTSBURGH, Aug. 19.—(INS)—The Allegheny county coroner's office reported today that an eight-year-old boy died while swimming at Piney Fork beach in nearby Snowden township.

The body of the boy, Isaac Reed Jr., was discovered in the water last night after his parents missed him.

The coroner's office said an autopsy disclosed the lad died of a glandular condition.

## White's Recall Not Probable

Indications are that Attorney Robert M. White, Republican candidate for the General Assembly will not be recalled by the United States Marine Corps for active duty, at least not for some time.

Mr. White is in the same position as Richardson Dilworth, Democratic candidate for governor. Both served in the Marines and both were discharged with the rank of major.

A spokesman for the Fourth Marine Corps Reserve has said that only officers of the rank of captain and below and the enlisted reservists with the rank of sergeant or less are being called into service.

Mr. White was in the Battle of Midway and also on Guadalcanal. On Guadalcanal he commanded a heavy field artillery unit.

**Auto Drops Into Opening In Street**

George Thillian, 1407 Wilson avenue, drove an auto which dropped into an opening in front of 516 East Division street at 8:45 p. m. Friday. A plumbing company had made, then refilled the hole, but the rain washed out the dirt, hence the accident.

Police investigated and street workers placed warning lights at the opening.

## Hurricane Has Changed Course

MIAMI, Aug. 19.—(INS)—The 1950 season's first Atlantic hurricane—a howling, 140-mile-an-hour storm—swung toward the northeast early today and highballed away from the North Carolina coastline.

Weather bureau forecasters at Miami said the hurricane shifted course and picked up forward speed a short while before 4:30 a. m. (EST) to ride what may be a long, curving path out to sea from its present position 400 miles east of Jacksonville, Fla.

The 4:30 o'clock hurricane advisory said the storm's new north-northeasterly path will bring it "a considerable distance" off the coast late today and tonight and lessen the danger to the North Carolina capes area.

That's the ruling handed down by National Capital Parks officials who rejected the request of a young Washington couple.

**HOW Water Works**

**DO YOU KNOW....?**

**WHY SOME CLOUDS ARE WHITE—AND OTHERS BLACK?**

The difference is caused by the size of the water particles in the clouds, as well as by the amount of sunlight shining on them. When the water particles are small, they reflect sunlight and the cloud is white. When the drops of water are larger, they absorb light instead of reflecting it, and the cloud appears dark.

## Man And Two Women Killed In Auto Crash

(BULLETIN)  
BEDFORD, Pa., Aug. 19.—(INS)—A man and two women were killed today in the head-on collision of an automobile and a trailer truck three miles east of Bedford on the Pennsylvania Turnpike.

State Police said the man was Harvey Dasher, 48, of 159 West 118th New York City.

One of the women who accompanied him in the automobile, died a short while later. She was believed to be his wife. The third woman died at the Everett, Pa. hospital. Police thought she was Dasher's daughter.

Dasher apparently lost control of the east-bound car. State police said. The car careened across the dividing parkway and hit the west-bound auto transport truck head-on.

The truck driver, Walter L. Gas-kill, 24, of Jersey City, N.J., suffered minor cuts and was treated at Bedford hospital.

Witnesses described the accident as one of the worst in turnpike history, and said the Dasher car was literally torn to pieces.

## Singer Lane Denies Mrs. Cugat's Charges

NEW YORK, Aug. 19.—(INS)—Singer Abbe Lane declared today that charges she and bandleader Xavier Cugat played house as well as music were "a tissue of baseless, ridiculous and vile falsehoods."

She replied through her attorney to accusations in an amended complaint filed against Cugat in Los Angeles by his estranged wife, Lorraine Allen, 28-year-old flame-tressed actress.

Miss Allen's complaint named Miss Lane, June Bell and singer Betty George as co-respondents along with four "Jane Does". Cugat said he never heard of June Bell, but he intended to marry Miss Lane when free from Miss Allen.

## Boy Shoots Self When Denied Car

SOUTH BEND, Ind., Aug. 19.—(INS)—A 16-year-old South Bend youth, despondent because he was denied use of the family car, telephoned a girl friend, asked her to count 10 aloud, and then fatally shot himself.

Police said John Bulhand was found shot through the head and unconscious on the floor of his home a few minutes after the phone call Friday. Toby Priebe, the girl, told them: "When I reached 10, I heard a noise like a door slamming. Then I heard some moaning and sobbing and then it was quiet."

The boy died later at St. Joseph hospital.

## Named Miss Chicago

—Acme Telephoto  
CHICAGO, Ill. — Marjorie Adams, 22, was named Miss Chicago here last night and will represent the Windy City in the annual Miss America contest at Atlantic City, N. J. this fall. She was chosen from 14 semi-finalists in the contest held at the Chicago Fair.

## Honor Memory Of Five Fliers Shot Down Four Years Ago

WASHINGTON, Aug. 19.—(INS)—A monument was dedicated in Arlington National Cemetery today to the five American flyers who were shot down over Yugoslavia four years ago.

Arthur Bliss Lane, former U.S. minister to the Balkan nation, dedicated the memorial address and delivered a group of distinguished Americans in paying tribute to the air-men who "made the supreme sacrifice for their country."

The impressive white marble slab bore the inscription "Yugoslavia, Aug. 19, 1946" and the names of the Air Force men who

were shot down while on a routine flight in an unarmed transport plane. They were:

Capt. Richard H. Claeys, St. Charles, Ill.; Cpl. Matthew Comko, Monessen, Pa.; Capt. Blen H. Freestone, Burley, Idaho; Cpl. Chester J. Lower, Enfield, N. H.; Capt. Harold F. Schreiber, New Albany, Ind.

## COAL FACTS

WASHINGTON — (INS) — The American bituminous coal miner produces more than five times what his British cousin does during a day's time due mainly to the use of machines for mining more coal faster.

A practical gadget for the home-owner is a screw driver with built-in flashlight to illuminate screw-heads obscured by shadows or blanketed out by darkness.

## President Goes To Mountain Lodge

WASHINGTON, Aug. 19.—(INS)—President Truman left Washington today for a quiet weekend at the presidential lodge in the Blue Ridge mountains, 65 miles from the nation's capital.

The President drove to the mountain lodge with Mrs. Truman and their daughter Margaret. They will return to Washington early Monday morning.

The lodge familiarly known as "Shangri-La", is the hide-out that the late President Roosevelt used for weekend visits and conferences with British Prime Minister Churchill during the last war. This will be President Truman's

first visit to the lodge this summer. It is located near Thurmont, Md., a few miles from the Gettysburg battlefield.

## Football Squad Leaves Monday

### About 50 To Go To Training Camp

New Castle high school football squad will leave Monday morning for two weeks football training camp at Camp Fred L. Rentz on the Slippery Rock Creek above Harlansburg.

Coach Phil H. Bridenbaugh has announced that he will take about 50 candidates to camp.

Final workout at Taggart Stadium, prior to selecting the boys to attend camp, was held this morning.

### Klapak Will Race At Canfield Tonight

CANFIELD, O., Aug. 19.—Mike Klapak of Warren, O., the national high point man of the NASCAR circuit, will be in the competition at the Canfield Speedway hard top races tonight. Klapak is determined to stop the winning streak of the Johnston coal miner, Mike Little. Klapak is leading the national points standing by more than 200 points with 1978 points to his credit.

The Canfield fans will miss Buckle of Toledo this Saturday night. Sager suffered arm and leg burns last Thursday night at the Heidelberg Speedway and is confined to the hospital there.

## Yankees-Boston Pick Up Ground, Phillies Beaten

### Tigers-Indians Are Rained Out

By JOHN BARRINGTON  
(International News Service Sports Writer)  
NEW YORK, Aug. 19. If Casey Stengel could put his Yankee clipper rest cure in bottles, he could get rich peddling it to other major league managers.

Ole Doc Stengel took the wraps off Joe Di Maggio last night after a week's enforced vacation, and the results were just about all that could be desired.

**Di Maggio Homers**  
The Clipper didn't get the ball out of the infield his first three trips to the plate. But he socked his 22nd home run of the season into the upper left stands at Shibe Park in the ninth inning to give the Yankees a 3-to-2 victory over the Philadelphia Athletics.

Another fellow who didn't take a rest cure used the Di Maggio formula, too, last night. Bobby Doerr belted his 21st homer in the tenth inning to present the Boston Red Sox with a 7-to-6 win over Washington.

Both the Yanks and Boston picked up half a game on the first-place Detroit Tigers and second-place Cleveland Indians, who were rained out in scheduled meetings with St. Louis and Chicago, respectively.

### Phillies Beaten

The National League race was tightened a bit, too, as the Philadelphia Phils were trounced in their penultimate game by the New York Giants' bargain counter hurler, Jim Hearn.

The Giants, with Hearn granting only five hits, topped the Phils, 7 to 4.

The Brooklyn Dodgers trimmed the Phils' lead to 5-1-2 games and cemented their own hold on second place by drubbing the Boston Braves, 8 to 3.

### Cards-Pirates Win

The St. Louis Cardinals squeezed out a 2-to-1 decision over Cincinnati in 11 innings.

Pittsburgh topped the Chicago Cubs, 9 to 3, behind Cliff Chambers. Roy Smalley homered for the Cubs.

## Crash Injures High Gridders

CONNELLSVILLE, Pa., Aug. 19.—(INS)—Six Dunbar township high school football players were being treated today for injuries suffered when the automobile in which they were returning from football practice crashed into a telephone pole.

Reported in fair condition at Connelville State hospital were Anthony Bollibon, 17, of Little Summit, and Louis Espersi, 19, of Dunbar.

Treated and released were Howard Shalensberger, 17, of Dawson; John Cockick, 15, and Eugene Senock, 16, both of Leisenring No. 1, and Paul Homer, 15, of Dunbar. The accident occurred about 5 p.m. yesterday as the boys were returning from their first day of football practice.

## Sunset And Seals To Play Monday

Sunset and Seals of the American Legion Junior League will play their second playoff game Monday evening at 6 o'clock at Washington field.

The game was originally scheduled for Friday night but was rained out.

Kiner, who has arms as big as your thighs, is a sort of hitting freak. He was a weak hitter in the minors, then went to war and when he came back was a terror.

## Pairings Are Announced For City Tennis Tourney

Pairings for the New Castle junior and senior tennis tournaments have been made.

All first and second round games will be played at the various courts of the city with the semi-finals being played at the New Castle Country Club court Saturday, August 26. The finals will be played on the same courts Sunday, August 27.

All contestants of the senior division will note that no assignments of courts are made for first and second round games. Each player has to contact his opponent and arrange for courts. If players are unable to obtain a court, call Art Alexander at 407 and he will make sure that a court is made available.

## HERE and THERE IN SPORTS LAND

AMONG THOSE who witnessed the Flaherty field fights Thursday night was Eddie Bowen, formerly of the South Side, Sharon, but now of Washington, D. C. For a time during his featherweight career Eddie seemed destined for the front ranks of 126-pounders, but poor handling got him nowhere. His career was abruptly halted when he sustained an accident during a fight. He is visiting William H. Bond of this city.

Another who watched the fights was Al Wolgast, who, during his days as an amateur, was better than fair. In fact, he was a good rugged, puncher, but drifted out of the game. He now writes for a Farrell newspaper. Al is the ring-leader of the Shenango Valley Boxers association, which will stage a mammoth amateur show August 29 for charitable purposes.

Jimmy Avon, Cleveland, handled Tommy Salem. He formerly handled the Mazzo brothers, Pete and Vito, who boxed for Here and There in the Jolly bowl. Vito accompanied Avon to New Castle. Avon remarked that Eddie Marotta, whom he developed into a great amateur fighter, left his management after he turned pro. Jimmy will make matches for the Forest City Athletic club.

Mike Palumbo, Sharon, who also boxed in the Jolly bowl, witnessed the encounter. After he drifted out as a fighter, Mike became a promoter at Sharon. George Chip, former middleweight champion, attended the show, the first of which he has seen in several years. He left the field before the main bout was finished. Ernie Hill, ex-160 pounder, also watched the fight proceedings.

Paul Chiclo, manager of Rizieri Ronzi, helped Joe Netro handle Swanson. What Swanson needed was less advice and more ability. How he managed to knock out the veteran Jackie Lyons, who dumped Billy Pozza, is a mystery, and it was on account of Swanson's win over Jackie that Tommy Leach of the Jefferson A.C. signed him to box Brothers.

Had Brothers boxed his usual good fight, the affray would have been over within two rounds. No true line on Brothers could be had, and how much he has progressed is unfortunally until he meets a worthy opponent. True, Elkins was aggressive, serious and tried hard but his judgment of distance was off, he failed to observe openings and curved his punches.

After the “gate” was counted, the Jefferson A.C. discovered that the results showed a financial defeat, hence Matchmaker Leach said he intends to try and arrange, of all things, some matches between “gal” wrestlers. The feminine grapplers are said to be as rough as some men, hence out of curiosity, a crowd may greet the first group to appear here.

JOE MEDURE and Dick Davis, city fathers, are hustling the All-Stars benefit at Flaherty field Tuesday night. The plan is this: The committee in charge of the All-Stars will receive a certain percentage of the receipts from the Senators vs. Erie game, which will bear the expense of sending the All-Stars (from both city and county) to a Dayton tournament.

Nine hundred and eighty-one paid to see Thursday evening's fights. According to Signor Leach, equally as many climbed over the fence. “A good fight would ensue between Bob Baker and Brothers, but the city isn't big enough to draw sufficiently to pay Baker”, according to Jimmy Avon, who knows his way around the pugilistic circuit.

Some days ago a query asked: “Where is Eddie Simms who lasted 26 seconds with Joe Louis?” Simms gave up fighting to play an accordion with an orchestra, and is now in California. ... Trader Horn organization will hold their annual reunion Sunday near Ramblers Rest, Slippery Rock creek. ... Jack (Frigid) Price, Pittsburgh, ex-Marine who saw plenty of action, will be here next week, according to Joe Gargaz.

## Season Ticket Sale Is Heavy

### Public Sale Opens Tuesday, August 29

J. H. Earl McKenzie, business manager at New Castle High announced today that requests for season football tickets by mail this year have been the heaviest in history of the school, and that nearly half of the steel bleachers this year will be filled with season ticket holders.

“Mail orders for tickets will be accepted until Friday, August 25,” McKenzie stated. There are still seats available on the 25 and 30-yard lines, for mail customers.

The sale to the general public will open at the North Street School on Tuesday, August 29, at 9 o'clock, and will continue through September 1, in order to accommodate any missed by mail orders.

Early indications point to a filled stadium for each of the seven home “Red Hurricane” games, starting with Carriack High on Friday, September 8th.

## Softball Playoff Game Postponed

Last night's softball playoff game between the Stegs and Allen-Houston was postponed because of rain.

The game—the third of a five-game series—will probably be played Monday evening at Gaston Park.

## Senators Will Open Series With Erie Here Tuesday

New Castle's young Senators will open an important series with the Erie Sailors at Flaherty Memorial Field Tuesday evening at 8:30 o'clock. The Tars will be here for three games.

Tuesday evening will be “Junior Baseball Federation Night” and part of the proceeds will go to help defray expenses of sending a strong New Castle Junior team to Dayton, O. August 31 for the National Junior Federation tournament. Last year the New Castle team made a big impression in the national tourney at Louisville, Ky.

**Councilmen Head Committee**  
Councilmen Dick Davis and Joe Medure are the co-chairmen of the drive to send the local boys to Dayton and have taken a part in the venture at Flaherty field next Tuesday, to be known as “Boost Junior Baseball Night.” All young ball players in the city 16 to 19 years of age are eligible for the team, that is being chosen by Wes Mann, Stan Witherspoon and Sam Ross.

Season tickets held by Senators fans will be honored at Flaherty Field for this game it was announced.

**Senators At Youngstown**  
The Senators idle the past three days in league action, by the dropping of Vandergift will return to action tonight at Idora Park in Youngstown meeting the Athletics at 8 o'clock.

Sunday night the Senators will battle the Youngstown club in a twin bill at Youngstown, first game starting at 7 o'clock. This is the game rained out at Masury, O. earlier in the year. New Castle and Youngstown will play a single game Monday night.

There was only one game played in the Mid-Atlantic League last night, Niagara Falls trimming Butler 4-1 to sweep the series of three games. Butler moves to Erie for three starting tonight. Oil City will be idle the next three days. Butler has now dropped five games behind the lead, and Erie's five and a half.

The Senators hope by the end of the Youngstown series to be back on top again, now trailing the idle Oilers by a game and a half.

## Penn State's New President Staunchly Defends Athletics

STATE COLLEGE, Pa., Aug. 19.—(INS)—Penn State's new president, Milton S. Eisenhower, today gave his unqualified support to "a sound program of intercollegiate athletics" in wartime as well as peacetime.

In a transcribed interview on the Mutual network, the former Kansas State college head said such a program "helps a student learn to be responsible, fair, co-operative and considerate of others."

"And during a period of national stress," he continued, "an athletic program can help relieve tensions and build morale."

"Certainly the armed services find a sports program among military personnel to be indispensable."

In emphasizing that "athletics should not and need not detract from the primary purpose of education," Dr. Eisenhower explained that "the important consideration, as far as I am concerned, is to maintain those policies which will enable young people to achieve genuine and lasting values from their participation in athletics."

Expressing the belief that most colleges and universities strive to keep their educational and athletic goals in harmony, Dr. Eisenhower said "malpractices . . . not only create problems for other universities" but by their very nature "create an erroneous impression about college athletics generally."

Dr. Eisenhower, fearful that his remarks on wartime athletics might be construed to mean that he considers all-out war inevitable, disowned any such intent and said he was personally hopeful "that the effort of the United Nations to stop aggression in Korea will succeed . . . and that the U. N. soon may be able to begin the tedious job of building permanent peace in the world."

He asks to be remembered to his many friends here and speaks nostalgically of his days in New Castle.

## Trader Horn Camp To Have Reunion Sunday

Long unused muscles and vocal cords will be given a workout Sunday, August 20, when members of Trader Horn Camp will meet for their fourth annual reunion.

This year's get together will be at Cole's cottage on Slippery Rock creek near Rambler's Rest.

The married men will attempt to even up the series with the single men in the softball game, which will be one of the features of the day's sports program. The single men hold a two to one edge over the shrouded men, gained during the past three reunions.

Another feature of the sports lineup will be the horseshoe tournament, in which Ches. Rowe and Ray Gray will defend their championship title gained at last year's meeting.

After a short business session the door prize will be awarded and the program will be given over to quartet and group singing.

Buffet style lunch and refreshments will be served during the entire day.

Trader Horn Camp was first organized by a group of South Side boys who camped along the Slippery Rock and Muddy creeks in the decade previous to World War II. After leaving the service the group planned an annual reunion of all the former members who gathered at the camp.

Response to the invitations indicate that this year's gathering will eclipse the attendance of the three previous reunions. John Phillips and Evan Lewis are in charge of reservations.

### PEACE PLAN

WASHINGTON—(INS)—The national president of Gold Star Wives believes that the road to peace lies through the education of children. Mrs. Reinke heads the nationwide organization composed solely of widows of World War II servicemen. She says: "Peace, naturally, is the main objective of our group, which was born of war. I feel that the proper well-rounded education of children is one step that would help in the drive for world peace."

### BIG PERCENTAGE

## THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

FAMILY CAMPING A WEEK-END ITEM

One of the high lights in the recreation club program I used to direct was the week end on

which fathers camped overnight with their children.

There's something very appealing about camping and hiking. The sharing in the preparation of meals and beds, the fun and adventure of exploring new places, bring real joy to the youngsters. And it is all the more exciting when mother or dad can be with them.

In our family, we still recall trips taken a dozen years ago. My wife, indeed, counts as some of her most pleasant memories the trips into the southern California mountains for three or four days of camping with the rest of her family. She remembers and can describe vividly all the little things that happened.

As we have moved more and more into towns and cities, there is less chance that we provide this sort of experience for our families. But the growing number of community camping spots, the fine state and national parks with provisions for camping out, and the greater interest in family activities being shown by such organizations as boy and girl scouts and campfire girls, mean that with a little effort, American families today can enjoy the fun of hiking and camping together.

## Price Support For Wheat To Be Announced Soon

WASHINGTON, Aug. 19—(INS)—The Agriculture department expects to announce the 1951 support price for wheat today or early next week at the latest.

Officials indicated that the price support program for wheat next year would be as high as it is this year, that is 90 per cent of parity.

Officials are driving to get out the wheat support announcement soon because sowing of winter wheat will begin shortly. The department wants farmers to know next year's level so it can be taken

into consideration in planting plans.

The government intends to keep the support price high to make it attractive for farmers to raise more wheat next year. Officials are looking for another more-than-a-billion bushels crop next year and supports will be geared to encourage farmers to produce a huge crop.

It was understood at the capitol that federal agriculture officials are planning to continue high support prices next year on other basic crops as well.

Under the law, the Agriculture department could drop supports during 1951 to 85 per cent of parity.

But officials feel that due to the current international situation it would be wise to promote large crops to take care of any emergency during the coming year.

The basic crops which are expected to be supported at 90 per cent of parity next year are wheat, corn, cotton, peanuts, tobacco and rice.

CEDARVILLE, O.—(INS)—A huge farm at Cedarville college provides a two-fold profit. The farm which requires 2,500-man hours of work from students, gives the college youths money to finance their education and, at the same time, provides meat and vegetables for the institution dining rooms.

### CHILDREN WRITE OWN LETTER

"At what age should children be taught to write their own letters, especially their 'thank-you' letters for gifts received? My daughter is in the second grade in school but I still write to our out-of-town friends and relatives thanking them for gifts to her. Mother thinks I should let her do so."

Answer: As soon as children have learned to write, they should be taught to write their own "thank-you" notes to relatives and friends, even their parents' friends who have sent them gifts. A letter, phrased in the simple, sincere language of a child, will delight the recipient and at the same time give the child a sense of responsibility and savor-far that it will find invaluable in future years.

Your child is sufficiently advanced to write her own letters, under your guidance. Let her improvise but before the letter goes out, examine it and address the envelope. If she is unable to use pen and ink, your close friends and relatives will understand and overlook the use of a pencil. Be sure that she acknowledges every gift. Too many mothers are careless about this item of etiquette, thinking that all will be forgiven because of the extreme youth of the child.

Question: Is it permissible for me to state my preference for white meat when served fowl at a friend's home?

Answer: Yes, if your host asks your preference. If you are not asked, you should not state your choice.

Question: What is the correct

way to address an envelope to a grown brother and sister: Mr. and Miss Smith, George and Mary Smith or Miss Mary and Mr. George Smith?

Answer: There is no such combination. Each should receive an individual invitation, letter, etc.

Present your problems to Miss Markel who will promptly mail replies to questions from readers enclosing stamped, self-addressed envelopes.

## Today's Fashion Flash

By PHYLLIS BATELLE

NEW YORK, Aug. 19—(INS)—Don't stock up on red smuggles—a new invention in fabric may

keep ladies warm more glamorously!

The fabric is a lightweight rayon, coated with gold, silver or aluminum, to seal in body heat.

The inventor is James H. Rand, III, who discovered in his Cleveland, O., laboratory that by metalizing fabrics, body radiation can be reflected directly back at the body. Thus, almost all body heat is retained and the most cold-blooded of persons can feel toasty.

The fabric—so new it hasn't yet been given a name—is lightweight, and made up of the rayon base coated with thin, overlapping flakes of the metallic.

Rand explains it won't be uncomfortable hot to wear, because it's porous and permits hot air and moisture to escape through it.

The "vanishing Indian" now is a myth, and New Mexico's Indian population is increasing slowly but steadily.
